Coming from the Bay side, this is an architect's sketch of how Albany Hill would be sliced away and developed into a new city. The proposed plan was submitted to the city by C. Dudley DeVelbiss of Piedmont and C. Park Henry, owners of most of the property, who filed for an excavating

permit to remove 6,000,000 cubic yards of earth. The fill would be used for widening of East Shore Highway. A public hearing will be held 8 p.m. Thursday at the City Hall to decide the controversial proposal.—Gazette Photo.

Public Hearing Set on Hill Issue

Excerpts From The Avenues By GENE EPLER

It will agree that it's a welcome relief to have the din and the of the election campaign be a thing of the sudden past. The political pundits, the results, establishing trends, the sure votes, and so on go forth. The rest of us busy trying to decide whether to send out Christmas cards. Only 45 days 'til

Albany merchants are just as pale as the next red-blooded man, and like us, just about apoplectic when it comes to discussing the American flag on a day. Albany Exchangers requested that all businessmen fly their flag out of the storage and place it where it belongs Saturday, Armistice Day.

HENRIKSEN: Albany Mayor, Eagle, contractor, amateur photographer, and above all—of five lovely daughters. . . . To see you out and around Hank. . . . As many of you Henry lost an eye some back when a piece of wood actually fell into a power saw—back injuring his left eye. . . . operated without success. . . . in the process of adding rooms to his home at 1219 when the accident happened. . . . he was released from the . . . the rains came. Things a heck of a mess around . . . It was then that his friends ganged up and went to give him a helping hand. . . . home is in pretty good today," said Henry. "Thanks many, many friends."

Albany Jaycees were through the dense smoke confusion at the S. F. Junior Smoker last Friday eve. The smoke was so thick "name" was almost invisible she made her dancing debut legitimate (?) stage. . . . on the second row balcony. Bob Woolworth, George Hank Lehman and T. Nick . . . Ben Henas Jr., good neighbor, Tom Van landed seats on the main . . . The only pair of binoculars the house was in possession of the San Jose Jaycees, all in the front row.

Owners Seek Permit to Slice Off Northern End

Destiny of a proposal to slice away the north end of Albany Hill and converting it into a new city addition will be decided by the City Council after arguments are presented in a hearing 8 p.m. Thursday at the City Hall.

The Council Monday night called the hearing to discuss a proposal of C. Dudley DeVelbiss of Piedmont, and C. P. Henry of Berkeley, owners of most of the property, who recently filed for an excavating permit to remove 6,000,000 cubic yards of earth from the hill.

The proposal was referred to the Council by the Park, Planning and Zoning Commission and the City Engineer after making a study of the plan. They will present their recommendations to the Council at the Thursday night hearing.

The hill has been the center of numerous controversies during the past few years.

DeVelbiss was granted permission to remove the northwest section of the hill several years ago to use as fill for the race track parking lot. The permit was granted, but not without a public hearing and protests of residents.

In 1947, the P.G.&E. requested permission to construct a huge gas storage tank on the west side of the hill. Residents protested again at a public hearing and the tank was later constructed in Richmond. Residents protested on the ground that it was "dangerous" and that it would be an "eyesore to the beauty of the hill."

Former City Engineer E. A. Tarr in 1948 proposed a plan to slice away the hill and fill tide lands along the water front. He said the hill removal would provide a city addition for building new homes, while the waterfront could be developed into industrial property for the city.

The Planning Commission rejected Tarr's plan on the ground that it was practical to build homes on the hill as it now stands.

In the new proposal, filed by the law firm of Breed, Robinson and Stewart of Oakland, applicants stated that the southerly portion of the hill encircled by Gateview Ave. and Castro St., would be left untouched.

Commencing, however, at the saddle, which separates the southern portion from the northern and larger portion, they proposed to remove sufficient earth to convert the hill section into a sloping plane to a point about 100 feet south of the Contra Costa County line.

The material removed would be used as fill for widening East Shore Highway. The excavated area then would be developed into a subdivision.

Rotarians Hear Dist. Governor

Albany Rotarians today were giving more serious thought to each of the "four objects of Rotary" after hearing an address by Dist. Gov. Arch Davidson during his official visit to Albany.

Speaking before some 85 members, wives and guests at the Monday luncheon, Davidson placed particular emphasis on Rotary's third object—community service.

"We do not think of Rotary as a philosophy or religion," he said, "but as a means for improving our community and making its a better place to live."

Regarding club service, the first object, he stressed the importance of bringing young people into the club. He suggested a plan in which older members could change their classifications to "additional active" or "senior active" to open the way for younger men.

"Vocational service is what we do most in our everyday living," Davidson pointed out with reference to the club's second object.

Davidson also emphasized international service, the fourth object, stressing the need of international understanding and support of the United Nations.

The District Governor presided over a program assembly Monday evening at the Albany Y Community Center. He discussed reports submitted by committee chairmen and made various recommendations for the future.

Davidson and his family were introduced at the luncheon by President Elmer Coble, who presided over the meeting.

"Say, Mr. Garren," spokesman of the group said, "d'you s'pose we could have a job flashing those (usher) lights around the theatre?"

And another time a boy of nine breathlessly poked his head in the front door and said:

"Hey mister, I left my bike in the back of the theatre and now it's gone. Do you know anyone crooked around this place?"

Is a large company "good" for the community?

...meet Henry Bertholas and friends for the answer!

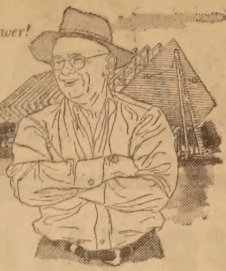

Henry Bertholas, Fall River Mills, started over 40 years ago digging gas mains for one of our predecessor companies. Today he's manager of the Pit River District. Like many another of P. G. and E.'s 16,500 employees, Henry has found time to serve his community—for several terms as school trustee; and as fire commissioner. To his neighbors in Shasta County, Henry Bertholas is P. G. and E.

Our main job is to see that you have all the gas and electricity you need at the lowest possible rate. You can judge how efficiently we do that job by two facts: the rates you pay are among the lowest in the nation—and plentiful reserves have already been provided by our record-breaking postwar expansion program, with even more facilities being built.

But every business has additional responsibilities: to the communities where it operates, and to their citizens. We now introduce you to six of our neighbors in Shasta County. On the basis of what P. G. and E. means to them and their communities, we think you can judge what it means to you and your community.

P. G. and E.

PACIFIC GAS AND ELECTRIC COMPANY

Harry Herr, of Glenburn, rancher and sawmill operator in the northern country for 50 years. Mr. Herr once said: "When P. G. and E. and its predecessor companies came into Shasta County 64 years ago, it helped put a lot of local folks in business, and we're still benefiting by it—just as are the folks who get their power at low rates."

Here's W. A. Hogg, owner of his own Variety Store in Anderson. To merchants and businessmen, as well as the folks who work in Shasta County, P. G. and E.'s investment of \$68,000,000 in property, and annual payrolls of \$1,668,000—have meant better business, a more prosperous community in which to live.

Meet Mr. and Mrs. Hugo Balma, of Redding. Along with more than 169,000 other P. G. and E. stockholders, they have invested a portion of their savings in our stock. Not only does this investment pay them a return, but helps finance P. G. and E.'s widespread expansion program to assure you a continuing, adequate supply of low-cost gas and electricity.

This is Frank Linebeck, Superintendent of Elementary Schools, Anderson District. Few of Shasta County's leaders know better than he how valuable a citizen and neighbor is P. G. and E. For the company pays nearly half of all school taxes that support Shasta County's fine schools.

Staging one of their infrequent assembly programs, Albany High School faculty members entertain students with a Gay Nineties vaudeville act. In front are, left to right, Blanche Vrana, "Cassy's" strawberry blonde who waltzed it on roller skates, and Craig Ortleib, villain of "And Then the Lamp Went Out." Back, left to right, are Margaret Gilchrist, who rode half of the "Bicycle Built For Two;" Katherine Butts, can-can girl; Principal Charles Moore, a dancer in "Hello My Baby;" Miriam Gilsenan, Gay Nineties representative, and Frank Turner, member of a barber shop quartet—Courtesy Gazette.

MERCURY

BY POPULAR DEMAND!

There's a tremendous pulse of enthusiasm sweeping the country for our candidate. Take a look at the "election returns" showing that Mercury is the only automobile that has doubled its sales in a single year! More and more future-minded buyers are demanding the new Merc-O-Matic Drive—Mercury's wonderful new automatic transmission that is smoother, simpler, and more efficient. They like the feel of that Indianapolis Pace Car engine with its bold, smooth swoop of power that hoards gasoline just as it did in winning the Grand Canyon Gas-Economy Test. They vote for Mercury's years-ahead styling, with its new colors... its longer, lower, heavier look... its rich new Customized interiors and Lounge Rest ride. Take the Drive of your life... then make the buy of your life... 1951 Mercury with Merc-O-Matic Drive!

*1951 Mercury offers three transmission choices: Merc-O-Matic, gas-saving Touch-O-Matic overdrive, or standard transmission.

MOVIES, MIKES AND TELEVISION TALK
By LYNN WILSON—ANS Features

"MUSICAL COMEDY TIME" ... is television production extravaganza—a brand new full-hour show on NBC-TV (every other Monday evening at 9:30 p.m. est). "Musical Comedy Time" brings to the

TV screen some of the finest artists of stage and film in famous Broadway musical comedies. Representative of the treat in store is lovely Jeannette MacDonald who is scheduled to appear in "The Merry Widow." Martha Raye, Wilbur Evans and many other big name stars are booked for "Anything Goes," "The Chocolate Soldier," "Rio Rita," etc. For many of them it will be first appearances before the television cameras.

MORTON DOWNEY'S new Saturday show on CBS, "Refreshment Time," seems sure to give the name radio a lift, presenting, as it does, an all star cast in a spotlight variety format. In addition to the ever popular Downey song sessions, his sponsors have signed up Carmen Mastren's orchestra, the Skylarks as a radio lift group and the piano playing sensation, Stan Freeman, for regulars on the program. "Refreshment Time" will also feature guest stars with pretty Kitty Kallen on the opening show and others of equal stature to follow. In addition to this radio show, Downey also stars on his own CBS-TV program each Friday night and is one of the most sought after guest stars in the television moment.

RADIO'S SINGING HILL-BILLY, Judy Canova, returns to the air this week via NBC Saturday evenings. Like many Hollywooders, Judy does formal and lives quietly outside the city ... and although most people would picture her in farm togs she is actually very fashion conscious. Judy Canova has many likes and dislikes. Badminton, ping pong, tennis, making movies and cooking have her hearty cooperation while peroxide blondes and those who let success go to their heads are definitely on the black list.

HANDSOME JACK BARRY, one of radio and TV's most popular stars, whose "Life Begins at 80" is seen on ABC TV Tuesday at 10-10:30 p.m. est. came to New York to be an announcer. In no time, Jack was creating his own programs. "Life Begins at 80" on which men and women over 80 discuss personal problems is his most recent. It's lively, human and humorous—and makes good sense. Jack's inspiration for this one is the fact that there are over one million octogenarians in the U.S. Today, demands for Barry's programs and emceeing are so extensive that he has formed a company to handle the many activities.

Cornell Conducts Fall Rag Drive

Cornell PTA conducted its fall rag drive here this week, proceeds which will go for the child welfare fund.

Clean cotton or wool rags and clothing were collected by students, with cash prizes awarded to the class in each building contributing the most pounds of rags. All usable clothing will be donated to the clothing room sponsored by the Albany-Berkeley Council of Parents and Teachers.

The executive board met recently at the home of Mrs. Earl Sorensen, parliamentarian, for a stork shower honoring Mrs. Joseph McCooly, registrar and chairman of budget and finance for 1949-1950. Members also offered farewell wishes to Mrs. Alfred A. Lingo and presented her with a gift.

Members attending included the Mesdames William Ochao, Wallace Mardilla, Harry Eckstein, John Irwin, Laurence Olson, L. A. Cassell, Lawrence Lane, Joseph McCooly, Donald Goss, J. L. Hopper, Alfred Lingo, Conway Smith, John McShea, Carl Rasmussen, Walter Wegin, Al M. Simmons and Mrs. John Muzenich, with her small daughter, Nancy.
